L. CAMERON

Jacksonville, - - - - Florida.

My Stock was entirely consumed in the great fire that devastated the City of Tampa on May 3d. Before the debris had been cleared from the ground at the old stand I had time to carry water to put out fire while clearing up a frame building and began getting up my Stock as New Crops came on.

From my fifteen years experience in the exclusive seed business in the state of Florida, I have learned to know the seed growers in the state that produce seeds that give best results. All seeds offered by me are from the best specialists in seed growing. Thanking old and new friends for their patronage and assuring new or old friends of my attention to all orders they favor me with.

Very truly yours

L. G. C. 1907
